TO THE BOARD OF DIRECTORS OF THE INTERNATIONAL FRATERNITY DELTA SIGMA PI

Dear Board of Directors,

We, the members of the Alpha Theta Chi Colony of the University of Texas at San Antonio, do hereby petition for a Chapter Charter of the International Fraternity of Delta Sigma Pi. The Alpha Theta Chi Colony was established exclusively for the purpose of association of Delta Sigma Pi. We continue to maintain the ideas of the International Fraternity of Delta Sigma Pi after which the colony has styled itself. Proof includes our utmost level of professionalism, display of enthusiasm and commitment, community involvement, and strong brotherhood.

We vow to uphold the rules, regulations, and standards of Delta Sigma Pi as set forth in its Bylaws and Constitution in the pursuance of a Chapter Charter and continuing association with the Fraternity.

Thankfully, the members of the Alpha Theta Chi Colony:

Alvarado, Jose

Board of Directors
Delta Sigma Pi
330 South Campus Avenue
Oxford, Ohio 45056

Dear Board Members:

We welcome the addition of Delta Sigma Pi as a full-fledged chapter of your international fraternity at The University of Texas at San Antonio.

Over the past several months, we have seen tremendous progress of the local colony as it has developed its membership base, community outreach programs, and fundraising events.

At UTSA, we believe that professional student organizations such as Delta Sigma Pi provide important leadership opportunities for motivated individuals who have high aspirations for their future. Their contributions to major community events such as the Feast for Sharing, the San Antonio Zoo, and events with elementary children and older adults are examples of how they have involved themselves in service related areas.

The colony has also focused on professional development opportunities for their members, bringing notable guest speakers to campus to interact with members on a variety of career-related topics.

In addition, they have recruited, motivated, and retained a large cadre of committed charter members that represent some of the best talent in the College of Business. This is especially challenging at our campus, where many students work full time, and where a high percentage of our students are first generation college attendees. Their success can be attributed to excellent leadership and a very strong commitment to the traditions of Delta Sigma Pi.

We are fortunate to have a focused, proactive group of students guiding the development of this chapter, and I urge you to approve their application for a charter.

Regards,

John M. Jennings
Asst. Dean, Undergraduate Professional Development

January 30, 2006

To Delta Sigma Pi Board of Directors,

Dear Sirs and Madams,

I am the academic advisor for the UTSA colony of DSP and am writing this letter to request and advise that they be granted chartership in accordance to the guidelines of the national DSP organization.

Being their advisor, I have had close contact with the colony throughout the fall of 2005 and into 2006, and am impressed by the professionalism and organization of the colony, and their current officers. President Kiszkiel and Vice-President Patel are intelligent, sharp leaders who others are willing to follow. And the membership is already full of eager potential leadership ready to follow in Kiszkiel and Patel's footsteps.

Membership has consistently grown throughout this time, and the early feelings of loyalty are strong. The visibility of DSP on campus is very good, and they are certainly welcomed, with students excited to have a chapter of DSP on campus. The current colony members have gotten the word out that this is a viable, organized and active organization that will serve to both benefit members through experience and community service, and benefit the university and community at large because of their growing presence here at UTSA.

There is also a good competition of sorts with the existing Alpha Kappa group, and certainly the students on campus are happy to have a choice of groups to join. This, of course, also fosters a stronger bond within the colony members of DSP and motivates them to work harder, be more active, and show their pride more visibly as members of DSP.

To grant this colony chartership can only enhance all these factors, and certainly will benefit the members, the university and the San Antonio community.

I thank you for your time and appreciate your attention to this.

Sincerely,

Timothy L. Strudell

To Board of Directors of Delta Sigma Pi:

Dear Sirs or Madams,

I am a professor of marketing for the University of Texas at San Antonio. I am writing this letter on behalf of the UTSA colony of Delta Sigma Pi to request that they be granted chartership to the national Delta Sigma Pi organization.

The colony's current President, Chris Kiszkiel, was former student of mine. He is a highly motivated individual with strong leadership and interpersonal skills. He is well suited for group work and he understands group dynamics under trying circumstances. In class, Chris was well liked among his peers. He is a personable individual and his professional manner makes him a positive representative of UTSA.

Chris is an individual of strong character. I know that he would make a fine representative for your organization.

I thank you for your time and consideration in this matter.

Sincerely,

Richard Lee Utecht, Ph.D.
Associate Professor of Marketing

April 27, 2006

Dear Board of Directors,

It is my pleasure to give my recommendation that the Alpha Theta Chi Colony of The University of Texas at San Antonio be installed as a chapter in the International Fraternity of Delta Sigma Pi.

I began working with the Alpha Theta Chi Colony as their Regional Vice President since August 2005 and have been impressed by their drive to become a part of the fraternity. I have worked with the President and Senior Vice President extensively to assist them in each aspect of their progression towards becoming a chapter. Every time we have met I have been impressed to hear the ideas they had already brainstormed as well as the openness they have had to my suggestions. Each time a task or goal was given to them they did everything in their power to carry out the task or reach the goal as successfully as possible.

The beginning stages of the colony were very much task oriented which shows that this group of people can operate as a chapter and achieve the goals the fraternity gives them. The success of the colony officers and members effectively operating is evidenced by the professional and community service events required, fundraising events and national event attendance all being accomplished within a year of submitting their letter of intent. The desire to be apart of a brotherhood is exemplified in the eagerness to recruit more potential brothers throughout this past year and continuing as I write this letter. They have also taken ideas from central office as well as volunteer leaders to improve their internal relations and make their meetings an environment to get to know one another to build the bonds of brotherhood.

While the progression to becoming a chapter has not been the smoothest road, I feel that all obstacles the colony has overcome has only bettered them and enabled them to be prepared to become apart of the brotherhood of Delta Sigma Pi. I hope the Board finds this petition to be insightful and that you take every consideration in accepting the Alpha Theta Chi colony into the International Fraternity of Delta Sigma Pi.

Fraternally,

Brandi Taylor

Gulf Western Regional Vice President

April 27, 2006

Dear Board of Directors,

I would like to recommend the Alpha Theta Chi Colony at the University of Texas at San Antonio to be installed as a chapter within the International Fraternity of Delta Sigma Pi.

I have worked with the officers and members of the Alpha Theta Chi Colony since I was appointed their District Director in September of 2005. It has been a wonderful experience watching the colony members grow into what I believe will be a successful chapter within the fraternity.

The colony has had their ups and downs in regards to recruitment and turnover of members and officers. They have never let this get them down and have always strived to rise again. They have reached the minimum 25 member requirement and will continue recruitment efforts until the time of their pledging. While several officers have resigned during the year, the colony's current officers are a strong and dedicated team. The officers have worked hard this past semester to bring the members together, fulfill the petition requirements and build a brotherhood within the colony.

The road to becoming a chapter is not always an easy one, but with a dedicated and hardworking group it can be achieved. During the fall semester of 2005, the colony completed seven of the required eight professional activities and four of six community services events. This allowed the colony to concentrate on recruitment, fundraising and brotherhood activities during the spring semester.

While it is important to meet the petition requirements, I believe that creating a brotherhood among the members is one of the most important aspects along the road of becoming a chapter. The members and officers have worked diligently to create a feeling of brotherhood within the colony. Both the President and Senior Vice President attended the 2005 Grand Chapter Congress in Orlando, Florida. Six members attended the Austin LEAD event in February 2006. Members have come to Alamo City Alumni events, mixers with the Lambda Upsilon chapter at St. Mary's University and to the Spring 2005 Regional Initiation. These events, combined with the various social activities held by the colony, have allowed the members to see firsthand and truly experience what brotherhood is all about.

The colony has strived earnestly to fulfill the requirements to become a chapter. They have had encountered many bumps along the road, but have learned from these experiences and will use them to become a successful chapter. I encourage the Board to consider wholly the information contained within the following petition when deciding to accept the Alpha Theta Chi Colony for installation within Delta Sigma Pi.

Sincerely,

Faith Hughes
Alpha Theta Chi District Director
Alamo City Alumni President

History of University of Texas at San Antonio

Founded by the Texas Legislature in 1969, UTSA now offers access and opportunity for 27,291 students. UTSA has come a long way in just 36 years. Administrative offices for the first UTSA president, Arleigh B. Templeton, were set up in Hemisfair Park, and architects Ford, Powell and Carson Inc. began developing a conceptual master plan for the campus.

In addition to the educational advantages UTSA offers, its economic impact directly and indirectly produces more than \$1 billion in annual business activity in Texas, including more than 6,500 jobs and \$200 million in personal income. Purchases by UTSA in FY 2004 totaled more than \$30.8 million, with \$6.5 million or 21 percent designated or obtained from historically underutilized business (HUB) vendors. The university currently has 3,899 employees.

UTSA has a goal to become a doctoral/research intensive institution by 2007 and a doctoral/research extensive institution by 2015. As the premier doctoral/research university of South Texas and as a Hispanic-serving institution, UTSA will continue to provide educational opportunities for the underrepresented population of the region at the highest level of excellence.

The College of Business History

The College of Business is dedicated to creating and sharing knowledge that enhances the translation of theory to practice. The College combines rigor with relevance and provides innovative solutions to global business challenges.

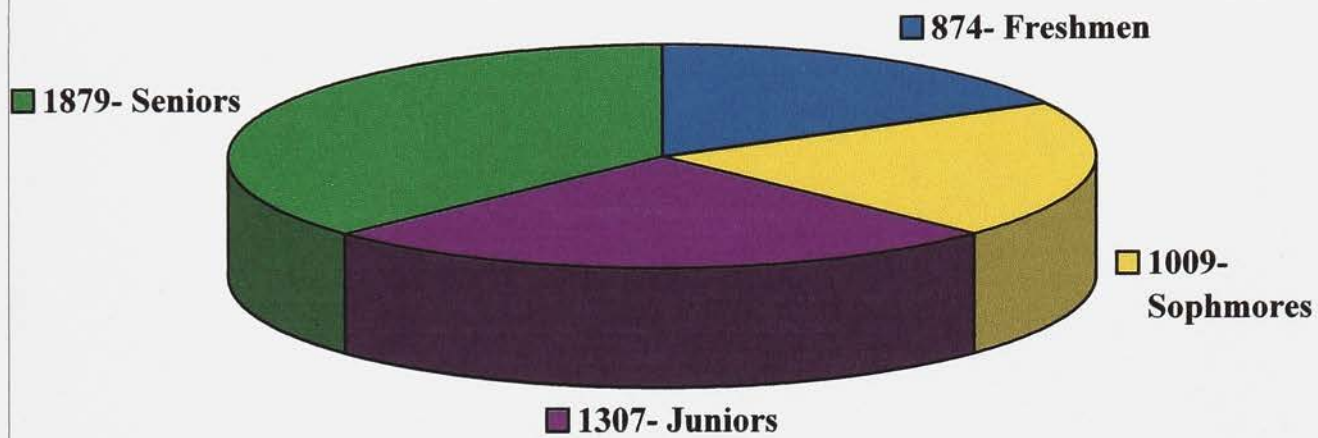

The College of Business at the University of Texas at San Antonio is the largest undergraduate business school in the University of Texas System and one of the 40 largest schools of business in the United States. With over 6,000 students, the college is second in the nation, according to a ranking by Hispanic Outlook magazine, in the number of undergraduate business degrees awarded to Hispanics.

The college offers a comprehensive portfolio of programs at the undergraduate, graduate and doctoral level, and unique centers of excellence in demography, global entrepreneurship, financial services, information assurance and security and tourism management.

College of Business Current Enrollment

The college is home to over 5,885 students: 5,070 undergraduates and 815 graduates

History of Alpha Theta Chi Colony of Delta Sigma Pi

Chris Kiszkiel, President, and Yagna Patel, Senior Vice President, had been searching for a club to get involved with at the university. When they could not find anything that would suffice, Chris called Gilbert Landras, brother of the Eta Psi chapter of Delta Sigma Pi at the University of Houston, for advice. Gilbert proposed that they establish a Delta Sigma Pi chapter at UTSA. Chris called Dale Clark at Central Office for information about Delta Sigma Pi. Dale sent out a package with all the necessary information needed to get a colony started at UTSA. The first thing that needed to happen was to come up with a name for the colony. The name Alpha Theta Chi was inspired by John Kiszkiel, Chris's brother, who was in a fraternity called Theta Chi; Alpha was attached to the beginning to signify the beginning of Delta Sigma Pi at UTSA. Recruiting started with close friends and classmates. Tables were setup around in front of the business building and other areas of high traffic to recruit new members. At the end of the spring semester a regional initiation dinner was held in Austin, TX that the colony members attended so they could become acquainted with brothers from other chapters, and to get a feel for Delta Sigma Pi. As the semester ended a core group of members was established to begin the next semester. On April 5, 2005 Alpha Theta Chi was established as a colony of Delta Sigma Pi at the University of Texas at San Antonio (UTSA).

Before the fall semester began, two colony members attended the 2005 Grand Chapter Congress in Orlando, Florida. While attending GCC the colony members met Tracey Florio, who was to be the future DD for the Eta Psi chapter of the University of Houston. During GCC the colony members helped Tracey to sell her merchandise to the members of Delta Sigma Pi, this allowed brothers of DSP to see how dedicated the colony was to being involved with a group such as this. The colony was also able to meet Brandi Taylor, their newly elected Regional Vice President. She was very excited to meet them and to help out in any possible way. In addition, the colony sold t-shirts as a fundraiser, and to promote themselves to the rest of the fraternity nationwide. The colony members were also able to network with many other brothers across the U.S., such as Los Ellis, Larry Sunn, Joanne Hendricks, Mitch Simmons, etc. GCC gave the colony members a motivational boost to recruit hard and to achieve all goals that were outlined by Central Office. As soon as the fall semester began the colony had to find someone to be their academic advisor. After searching for a couple of months they finally came across Tim Strudell, a finance professor, who was more than happy to take the job. He has been very helpful through the journey of the colony. The fall semester of 2005 began with recruiting efforts by setting up a table at The Rowdy Club Fair. At this fair, all of the organizations on campus set up tables so that they can let the new students know what clubs are on campus. During this event the colony was also able to meet Faith Hughes, their appointed DD. She was excited to see how well the colony was doing. With a long

list of prospective members, informational meetings were arranged. These meetings were setup on campus in the Pecan Room, which is in the University Center. Students were encouraged to bring friends to the meetings. The officers then started setting up the fall activity calendar.

Fundraising was initiated by business donations. Chris and Yagna collected donations from businesses in their hometown of Houston, TX. In October 2005 we held a benefit night at Taco Cabana. Members collected receipts and we received a percentage of the total sales from these receipts. In November, the colony started a candy sale. The process was sluggish; selling candy bars was more difficult than we had anticipated. The colony eventually broke even and learned that selling candy bars is not a very profitable fundraiser.

In order for members to get to know each other, to build stronger brotherhood and to encourage participation throughout the semester, the colony members set up a backyard BBQ. This event along with playing touch football, and eating together at restaurants allowed members to establish a better relationship with each other and create new friendships.

Six members attended the Dallas LEAD School in 2005 and ten members attended the 2006 Provincial LEAD in Austin. All the members that attended were very impressed with what they saw. For the members that went it brought them closer to DSP. Many ideas were brought back to the group and are now being successfully implemented. Some of these ideas were, taking attendance, motivational tactics, and creating stronger brotherhood bonds.

The colony set up numerous professional events for the semester. The speakers were: Larry Sunn, member of the Alamo City Alumni Chapter, Melissa Perez, Financial Specialist with South Trust Bank in San Antonio, Shirley Rowe, counselor in the Career Services office at UTSA, Dave Varella, Business Teacher, Sunita Trevino, Regional Vice President for Primerica Financial Services, and Gary Bridges, an accounting professor at UTSA. Members responded enthusiastically to the knowledge provided by each speaker. All of our speakers came to our meetings which were held on Thursday's at 8PM. On average the attendance was about 70%, but as the semester went on attendance and participation increased. Members were able to interact with these professionals after the meetings, and were able to network with them. Some members even did internships with Primerica.

During the fall and spring semesters, the colony also setup various community service events. In October 2005, members volunteered at the annual "Zoo Boo" event sponsored by the San Antonio Zoo. The event allowed members to assist in various activities planned for the children. At another event, members went to an elementary school and directed the activities for a field day event. During the holidays, the colony

participated in two different community service events. In December, Alpha Theta Chi took part in HEB's Annual Feast of Sharing. This event feeds thousands of people in the community. The colony assisted in serving the food to the people and helped clean up after the event. Also in December, members bought gifts for the elderly in nursing homes. In sharing the holiday spirit, the members spent some time entertaining and getting to know the elderly people.

In spring of 2006 we focused on strengthening the brotherhood of the group. The colony struggled in maintaining and attracting new people. Our officer positions changed a few times before all positions got settled in March. Current officers are: Chris Kiszkiel, President, Yagna Patel, Senior Vice President, Tommy Thompson, Vice President of Chapter Operations, Joanne Mamaradlo, Chancellor, Alex Avila, Vice President of Finance, Jezica Zarate, Vice President of Community Service, Tre Lujan, Vice President of Professional Events, Elizabeth Brito, Vice President of Scholarship and Awards, Kathy Farokhpour, Vice President of Alumni Relations, and Jose Alvarado, Historian.

In order to continue to enrich colony networking, members visited the Small Business Development Center at the UTSA downtown campus. At the center the colony members met Morrison Woods, the lead director, who spoke about the structure of a business and about the center's role in helping small businesses start up financially and ultimately succeed.

In February 2006 Alpha Theta Chi sponsored a blood drive with the South Texas Blood and Tissue Center. Our goal was to attain 75 units of blood. The colony surpassed that amount. It was exciting to have such a successful event. During the February LEAD event in Austin, members donated bags of dog food, cat food, both dog and cat collars, bags of cat litter and office supplies to the local SPCA. In April, we visited the Ronald McDonald House and baked cookies for the children. The colony was able to spend quality time with the children that were less fortunate than others. The children took a good liking to the group and were glad that we came to play with them.

A main objective during the spring semester was to create brotherhood among the colony members. To achieve this goal we put on a variety of social events. Colony members played touch football, celebrated birthdays with dinner, had a BBQ, went bowling, and got together for dinner and games. The colony also established its own "hang out" in the lounge of the business building. The group also decided that every Wednesday would be t-shirt day, and all of us wear our shirts to school to promote Delta Sigma Pi, and to get our name out on campus. All through this process we enjoyed getting to know each other. At each event we were able to find out something new and interesting about each member.

To further strengthen our brotherhood and our involvement within the fraternity we attended two social events. One event was a BBQ with the Lambda Upsilon chapter

from St. Mary's. The members that attended were able meet brothers of the fraternity and to get a better idea of the goals that we are trying to attain. Another event was one put on by the Alamo Alumni chapter of San Antonio. Members attended a dinner at Cha Cha's Restaurant, where they were able to meet and mingle with the Alumni members.

The Alpha Theta Chi colony is now in the process of expanding our membership along with strengthening our brotherhood within the colony. The colony is planning social events for the summer to keep our group cohesive and the keep in contact with our future brothers. The colony members are looking forward to participating in the events and activities that will make us a successful chapter of Delta Sigma Pi. The Alpha Theta Chi colony has grown dramatically as a group and would benefit DSP by becoming a chapter, because we can bring more brotherhood and exceptional performance for the fraternity as a whole. Bringing a chapter here to UTSA allows a variety of competition along with the university's development.
